Wellness Products

Herbal Bath The famous Moor Herbal Bath is one of nature's truly luxurious treats. When added to your bath, the water-soluble nutrients in the Moor create a wonderful soothing and purifying effect for the whole body. Take a Moor bath: 3 times per week for 6 weeks for therapeutic purposes; or as needed for a relaxing, reinvigorating experience.*

Herbal Bath with Pine The Herbal Bath is now also available with the refreshing aroma of pine essential oil.

Herbal Infusion A 100% natural herbal supplement consisting only of the herbs, organic substances and trace elements of the Austrian deep moor. When mixed it is virtually odourless and tasteless. Take once a day for general well-being, or 2-3 times per day for therapeutic purposes.*

Herbal Essence The Moor herbal supplement is also now available in this convenient one-a-day form. The moor is vacuum dried to preserve all of the organic richness of the substance and then encapsulated in a vegetarian-friendly capsule.

* Note: These statements have not been evaluated by Health Canada or the FDA. These products are not intended to diagnose, treat, prevent or cure any disease. If in doubt, always consult your physician.

Moor Bio-Energy

In order to assess the potency of various Moor sources we have used Kirlian photography which reveals the bioenergy or 'vital force' of a substance. This Kirlian photograph of a sample of the **Austrian Deep Moor** shows an extraordinary bioenergy potency. Many 'nature-cure' scientists have suggested that this bioenergy is absorbed on a cellular level stimulating the body's natural self-repair mechanisms.
